DEZHOU DEQIAN AIR CONDITIONING EQUIPMENT CO., LTD

地址：山东省德州市武城县鲁权屯镇旭日大街9号

FOCUS ON VENTILATION LEADING BRAND

Leading Ventilation Brand

COMPANY PROFILE

Dezhou Deqian Air Conditioning Equipment Co., Ltd. is located in the Luquantun Development Zone, Wucheng County, Dezhou City, Shandong Province. The company has passed ISO 9001 quality, ISO 14001 environmental and OHSAS 18001 occupational health & safety management system certifications, and holds AAA Quality & Credit Trustworthy Unit certificates. It mainly produces ventilation, air-conditioning, dust-removal and smoke-exhaust equipment. Fan series: CCCF axial-flow smoke-exhaust fans, CCCF fire-protection centrifugal fan boxes, positive-pressure supply fans, diagonal-flow fans, mixed-flow fans, axial-flow fans, ceiling and floor type units, fresh-air ventilators, heat-recovery units, fin-type, rotary-wheel and heat-pipe air-conditioning units. Damper series: CCCF automatic fire dampers, CCCF automatic smoke-exhaust fire dampers, CCCF automatic smoke-exhaust valves, manual regulating valves, check valves, positive-pressure air inlets, multi-leaf air inlets, CCCF automatic smoke vents, CCCF panel smoke vents, etc. (Fire-protection products are provided with national fire test reports and full CCCF certificates.) Aluminum air outlets, ball nozzles, swirl nozzles, diffusers, rain-proof louvers, single/double-layer louver outlets and other aluminum products. We professionally manufacture galvanized ventilation ducts, silencers, muffler elbows, acoustic plenum boxes, civil-air-defense ducts and spiral ducts.

Dezhou Deqian Air Conditioning Equipment Co., Ltd. is a high-tech enterprise integrating design, development, production, sales, installation and after-sales service. Modern workshops, sophisticated production equipment and complete testing methods bring product quality and technology up to standard, winning the trust of customers and the recognition of society. Since its foundation, the company has always taken technology as the guide and quality as the basis, adhering to the philosophy of integrity and win-win cooperation.
Dezhou Deqian sincerely looks forward to cooperating with you and creating a brilliant future together!

FAN SERIES

Fan Series

.....

"Energy saving, environmental protection, low carbon" and "people-oriented" are fully reflected in users. From the host to the end, every product, every detail, serious and meticulous work attitude and highly responsible spirit for users

Performance optimization saves energy

HTF Axial-Flow Smoke Exhaust Fan

HTFC Centrifugal Smoke Exhaust Fan

Wall Fan

AC Fan

Tunnel Fan

HL3-2A Low-Noise Mixed-Flow Fan

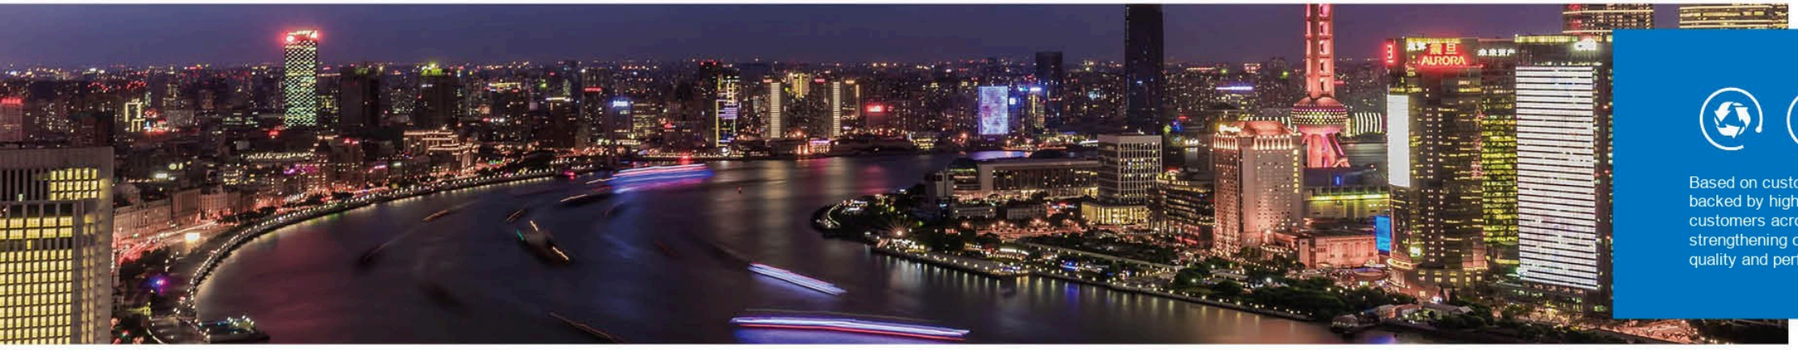

Roof Fan

Duct Fan

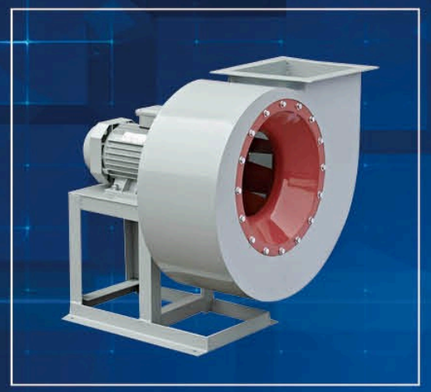

Centrifugal Fan Box

Based on customer needs, we provide comprehensive and customized construction solutions, backed by high-quality products and meticulous international service. Quality projects and customers across the country have recognized our professional technology and service level, strengthening our confidence. The company always focuses on customer needs, improving product quality and perfecting professional services.

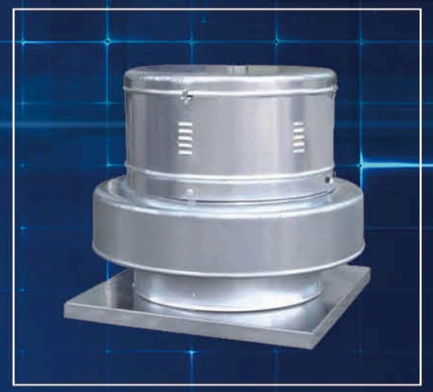

Induction Fan

4-72 Centrifugal Fan

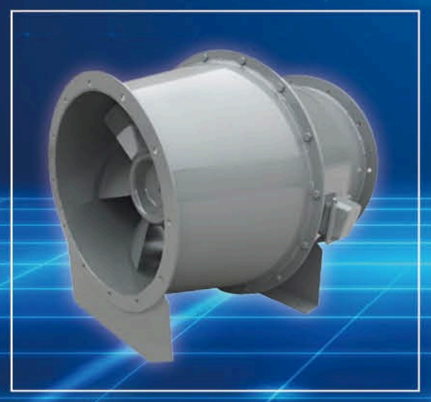

DZ-11 Low-Noise Axial-Flow Fan

RTC Aluminum Roof Fan

SWF Mixed-Flow Fan

SJG Diagonal-Flow Fan

Stainless-Steel Smoke Exhaust Fan

GXF Diagonal-Flow Fan

CCC VALVE SERIES

CCC Valve Series

Select high-quality metal raw materials to create green product environmental protection quality, no nickel and lead, and eliminate inferior materials.
The opening diameter is accurate, the construction and installation is more convenient, and the ventilation is not allowed to be applied to various fields.

Exquisite Workmanship

Excellent Corrosion Resistance

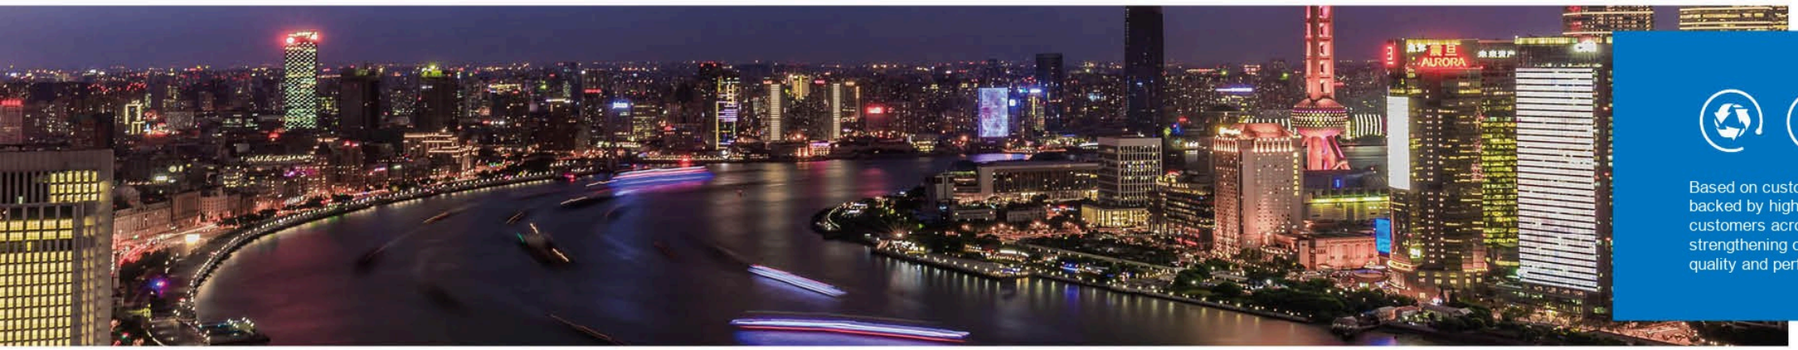

CCC Galvanized Steel Fire & Smoke Damper

CCC Stainless-Steel Fire Damper

Based on customer needs, we provide comprehensive and customized construction solutions, backed by high-quality products and meticulous international service. Quality projects and customers across the country have recognized our professional technology and service level, strengthening our confidence. The company always focuses on customer needs, improving product quality and perfecting professional services.

We keep bringing innovative technology to the market, so you are always one step ahead, enjoying an unexpectedly extraordinary cooling experience.

Smoke Exhaust Valve

Fire Damper

Smoke Vent

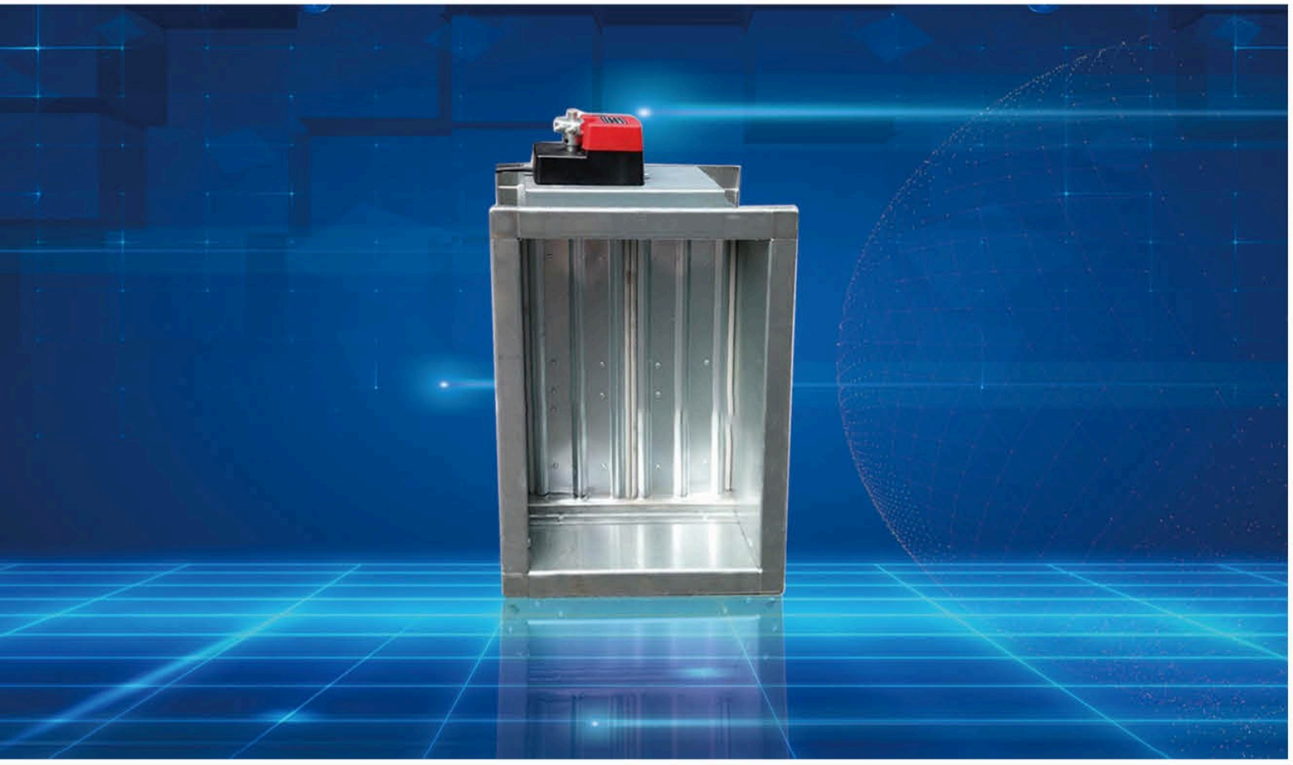

Remote Multi-Leaf Smoke Vent

Integrated Galvanized Valve

Be enterprising and strive for excellence

Motorized Damper

Innovation drives breakthroughs and stable quality; sound management improves efficiency. With technology as the driving force, we survive on quality. Innovation improves quality, and brand reputation promotes development.

To build a business with excellence, to meet the needs of users;
to win with quality,Make reliable products, treat each other sincerely and provide high-quality services.

Subway Airtight Valve

Panel Smoke Vent

FAN COIL UNIT SERIES

Fan Coil Unit Series

Leading Ventilation Brand
Technological Innovation
Focus on Ventilation Leadership Brand

Vertical Cabinet Fan Coil Unit

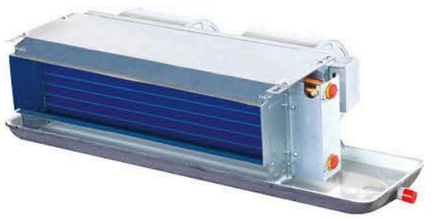

Vertical Exposed Fan Coil Unit

Ceiling Cassette Fan Coil Unit

Vertical Concealed Fan Coil Unit

Horizontal Concealed Fan Coil Unit

Inheriting professional and precise refrigeration technology, the modular chilled/hot water units deliver superior cooling performance; intelligent operation is simple and flexible; the clear design language conveys excellent performance and a unique temperament in every detail.

AIR CONDITIONING FRESH AIR UNIT SERIES

Fresh Air Unit Series

Modular Air Handling Unit

Constant T&H Unit

Rotary-Wheel Heat Recovery Unit

Ceiling Fresh Air Unit

Vertical Fresh Air Ventilator

Remote Jet Air Handling Unit

Ceiling Fresh Air Ventilator

Based on customer needs, we provide comprehensive and customized construction solutions, backed by high-quality products and meticulous international service. Quality projects and customers across the country have recognized our professional technology and service level, strengthening our confidence. The company always focuses on customer needs, improving product quality and perfecting professional services.

PURIFICATION SERIES

Purification Series
